Mirror and district has certainly sent its quota of patients to the Mayo Hospital at Rochester Minn., and on Thursday last several left for the southern healing place. Mrs. Jno. Stevenson, who has been suffering for some time will undergo treatment. Nels Gaskill, was also one of the seekers for better health. Jno. Stevenson accompanied his wife. We sincerely hope the sufferers will return completely cured.

Miss E. S. Albrecht, received a visit last Monday afternoon from her father, G. J. Albrecht of Edmonton.

The Ladies' Aid of the Methodist Church will hold a meeting in the church on Thursday afternoon, March, 9th, at 3 p.m. The election of officers for the ensuing year will take place, and all members are urgently requested to be present.

Mrs. E. H. Jesse, of the Ellies School Dist., returned on Wednesday of last week from a very enjoyable trip to Los Angeles, California. Mrs. Jesse left here in July of last year and spent the whole of her time in the famous watering places of the south. She thinks there is no place like California.

In the list of donators to the collection of catalogues to the Ogden Convalescent Home published in last week's issue, we omitted the name of Archie Jaques. Mr. Jaques gave 4 lbs butter, also corned beef.

Bob. Horniman and Harry Mitchell were Alix visitors last Monday.

Mr. and Mrs. H. W. Panrucker of Alix, were passengers on the north bound train on Sunday their destination being Camrose.

Y. P. S. ORGANIZE

On Friday of last week a number of young people gathered at the Rectory to organize a Young Peoples' Society. The first part of the evening was spent in organization. The following officers were elected:

Carl McCormick, President; Miss Albrecht, Vice-Treas.; Executive Committee, Mrs. Holdom, Miss Brewster, and Mr. Good.

It was decided to make the aims of this Society, Fellowship and Edification. After the organization the remainder of the evening was spent in a very enjoyable manner. The committee extend an invitation to all young people of eighteen years and over to attend their meetings. The next meeting is to be held Friday evening, Mar. 10th, at the home of Miss Edith Brewster, when a debate will be the chief feature of the program.

THE OGDEN HOME

Rev. M. W. Holdom, Chairman, Mirror Branch Canadian Red Cross Society, Mirror, Alta.

Dear Mr. Holdom:—

I beg to acknowledge, with thanks, receipt of your letter of the 23rd inst., and we were perfectly delighted to read of the splendid list of pupils your Branch is sending to Ogden Convalescent Home. The way freight arrived last night and is being transferred to the C. P. R. this morning and we hope it will be delivered this afternoon. I am acknowledging receipt in the papers as soon as it arrives. I cannot begin to tell you what a splendid help it will be to us.

We have had a good deal of difficulty with the Ogden Home. The trouble has been, that, up to the present, it was impossible to secure proper discipline in the Home, as we could not get a resident Commissioned Officer in charge. However, the whole situation is now changed, and we have a good Commissioned Officer and sergeant there.

There are now between fifty and sixty residents at the Red Cross Home at Ogden, and we are prepared to take a large number there at any time.

The Home is under the control of the Militia department, with Captain E. H. Reid, Medical Officer in charge, a resident Commissioned Officer and a sergeant, whose duties are to see that proper discipline is maintained. Our own staff consists of a nursing matron, Miss McPhedran, a nursing sister, Miss Moodie, and volunteer worker, Miss Yorke.

The Hospitals Commission pays us a per capita grant of \$60 per man per day and the difference between that and the cost of maintaining the Home is borne by the Alberta Provincial Branch of the Canadian Red Cross Society.

I think you would all be delighted if you paid a visit to the Home. This is a large red brick hotel. It has a large number of rooms, a large round-topped, dining room capable of seating 100 people. It has one of the finest bowling alleys in the west, with three alleys, a billiard room with two tables, and a library has been provided by one of the Chapters of the I. O. O. E.

Our Home is considered the leading Convalescent Home in Canada from the point of equipment and comfort.

With kindest regards to all your people and hoping this information may be of use to you.

Yours sincerely,

(Miss) M. Pinkham

LOCAL EVENTS

A. J. Frank, of Bashaw, paid his weekly visit to Mirror last Tuesday.

The Toronto Male Quartette played before a rather small audience last Monday evening, the stormy weather preventing many from attending. Their selections on the march were particularly fine. A dance followed the program, the members of the Quartette furnishing the music.

Regular monthly meeting of the Village Council next Monday evening.

The Mirror Branch of the Royal Neighbors of America held a meeting in the Kozy Studio last Wednesday afternoon.

We are informed that James Steele, Jr., a former resident of Mirror, has enlisted in Edmonton. Ross Steele, a brother, is still a prisoner of war in Germany.

Mrs. W. G. Merkley was in Alix last Monday for a short visit.

The sale of the Mirror Feed and Sale Stable by auction is advertised in another column. The date of the sale is Wednesday, March 22nd, at the hour of 2:30 o'clock.

Paul Bunnell returned last week from a visit of several months to points in the States.

T. O. Harvey, who has been canvassing this district for half insurance business, went to Calgary on Monday. He will return in the course of a week or ten days.

On Tuesday afternoon March 7th, at 2 p. m. in the Library Club Building, there will be a meeting to make bandages for the Red Cross. All ladies are invited to come and help.

The School Board held their regular meeting last Thursday morning, Chairman W. C. McCormack and Jas. Setter present. Accounts totaling \$177.30 were ordered paid.

WAR ! WAR !

This does not mean that we are declaring war, but what we intend to say is, the war is the main reason that prices on nearly all kinds Hardware has advanced from 40 to 100 per cent. While we have been compelled to raise our prices to a great extent, still we are selling a large number of articles at the old prices, and early buying has enabled us to sell most all other goods at prices that will compare favorably with any others now quoted.

Demand For Sheep Taxes the Supply

Farmers Showing New Interest in Industry as Wool Prices Are Up
The sheep industry in Saskatchewan this year has taken such an abnormal turn that the men in charge of agriculture have been taxed to get the supply for buyers, and farmers, are getting tired of it.

P. M. Brett, acting livestock commissioner, said that the last two months the last month trying to locate a sufficient number of sheep for the market, he had to go to his office and his office with requests. He has been able to secure about 1,300 animals, but the demand has been so great, 27, when 1,500 were sold. There are reports that the price of a lamb is \$1.50, that sheep owners on Western ranges have raised the price, which now stands at 25 cents per pound per week.

The development of the sheep industry in Saskatchewan during the last three years has been phenomenal and the market for the animals in large numbers. The good prices being paid for wool during the past year have been largely responsible for the great impetus in the market for lambs, and the future sheep in the market of the present very optimistic, according to reports from the market.

Mixed farming, according to these farmers, has come to be looked upon as the best way to make a living in the provinces and the ranges are fast disappearing.

One of the most important branches of mixed farming is sheep raising, which is receiving great attention.

Urge National Economy

Half of Population of England Making War Munitions

The following is a summary of figures contained in a series of articles from the press of a neutral writer whose sympathies are strongly pro-German. He says that probably a unique experience in the war zone, and a unique in neutral countries, is the fact that England, which for forty years has been the Dominion, is now family reunions in the Dominions.

England is too useful, too valuable, to be allowed to go to pieces, and the lack, scatious or neurasthenic, there is no power to penetrate such as the power of a family safeguard, as something that will be there to help you through the minor ill that will occur in every family, to cure pain anywhere, you can buy a new home, a new car, a new house, a new Neville, which for forty years has been the Dominion, and family reunions in the Dominions.

The Germans are responsible for the old-time family remedy.

As a result of the war, the German economy was forced not so much by the expense of the war, but by the expense of the war.

It was confident that it was upon her Customs Union they based their hopes of the greater German empire.

From Antwerp to Bagdad had been in their minds, and if they could not get the world, they would get the world would be just as good. If they force world war, the British might join this Customs Union they would be safe in their minds.

The speaker said he did not think the Germans would risk any of their forces in a war with England, but any Turks whom they could send to drive us out of the Balkans, they would be willing to offer the same facilities.

They did not want to waste our troops at too many points, and he contended that we could hold a strip of the coast of Europe with a small force with the latest devices, so long as they were well protected with ships.

They were to be given a chance to put tranches down well to the sea, and cause trouble.

Permit me to say nothing more satisfactory than that the speaker was right in his opinion.

Many of them had been made worse, and they had not come back.

Grips the Heart

Does not the story, which the dispatches bring of the Nursing Sisters on a ship to the Orient, who take the rescuing boats until the soldiers were saved, grip your heart? "Grip" is the name of the disease, and stood at their places until the ship went to the Orient, and then put tranches down well to the sea, and cause trouble.

If you know of a family who
spent the summer months at a
re sort, why not try to get
them to make their home in
Mirror next summer? Buffalo
lake affords pleasures untold
for all. Hunting, fishing and
boating, and while we have no
hot springs, the lake is a solid
stretch of water, thirty miles
long. Sailing is among the ple-
asant pastimes. Several vari-
eties of fish abound in its water
ranging in weight from one to
twenty pounds each. Get your
friends to build their summer
home in Mirror next summer.
